Security Alliance

# Securing the future of crypto

SEAL is a 501(c)(3) nonprofit that combines crypto-native expertise with institutional rigor. We operate a comprehensive threat intelligence program and set the operational security baselines that protocols, exchanges, and institutions depend on

## SEAL 911

The leading incident response team for crypto. 3,300+ incidents handled, 200+ war rooms coordinated, and over $180M in assets saved.

## SEAL Intel

The hub for crypto threat intelligence. Tracks, disrupts, and takes down threats ranging from wallet drainers to state-sponsored groups targeting the cryptocurrency ecosystem.

## SEAL Frameworks

Open-source, modular security standards designed for Web3 builders to enhance their security posture.

## SEAL Certifications

Crypto-specific security certifications establishing industry baselines for security vendors.

# SEAL Donation Program

Your donation directly funds the people and infrastructure that protect the crypto ecosystem, all while giving your team meaningful access to SEAL's intelligence, community, and expertise.

*All of SEAL's core work remains free and open. Donations add private value on top of public goods.*

## Why SEAL

Most security infrastructure in crypto is commercial, fragmented, or single-chain. SEAL is built differently: a neutral nonprofit providing incident response, threat intelligence, open standards, and whitehat protections with an annual operating cost of **$2M**. The Bybit exploit alone was $1.4B, more than 700x SEAL's entire budget.

### SEAL 911 — INCIDENT RESPONSE

| | | | |
|---|---|---|---|
| **3,300+**<br>total incidents handled | **200+**<br>war rooms coordinated | **$180M+**<br>total value saved | **$100k+**<br>commercial IR engagement<br>**$0 through SEAL 911** |

### SEAL INTEL — THREAT INTELLIGENCE

| | | | |
|---|---|---|---|
| **<24hr**<br>threat response time | **10+**<br>threat actors tracked | **10,000+**<br>malicious indicators in ISAC | **~$150k/yr**<br>commercial TI platform<br>**$0 for Gold+ members** |

**Where your money goes:** The majority of donation revenue goes directly to people - the analysts, engineers, and coordinators who respond to incidents, produce threat intelligence, and develop security standards. SEAL runs lean: 74% of expenses go directly to program work, supported by a volunteer network that donates thousands of hours of security expertise.

**Financial transparency:** SEAL publishes full financial transparency reports. We operate lean by design, and every dollar goes to work immediately. Read our 2025 Financial Transparency Report.

# Donation Tiers

| | Silver<br>$50,000 / year | Gold<br>$100,000 / year | Platinum<br>$250,000 / year | Diamond<br>$500,000 / year |
|---|---|---|---|---|
| Private member network access | 2 seats | 4 seats | 6 seats | 10 seats |
| Logo placement on SEAL website | ✓ | ✓ | ✓ | ✓ |
| Input into Frameworks development | ✓ | ✓ | ✓ | ✓ |
| Quarterly threat landscape report | ✓ | ✓ | ✓ | ✓ |
| Access to ISAC | — | ✓ | ✓ | ✓ |
